Seabraes bridge lift

Recently, following complaints to me from residents that the lift at the Seabraes was again out of action (on two occasions), I reported this to the City Council.

The lift has been swiftly repaired but I have asked for - and been given assurances - that signage will be provided with the contact phone number for reporting when the bridge is not working

Hawkhill by-pass

Recently, I highlighted residents' concerns about the overgrown state of the north side of Hawkhill - a very prominent site.

I am pleased to report that, following my raising this with environment officers in the City Council's Neighbourhood Services, this has been attended to as the "before" (left) and "after" (below) photos indicate.
